

# Sprint 3 Report

5/29/16

Brewmasters: Kevin McCotter, Cole Lampert,  
Eric Rodriguez, Justin Farris, Jonix Gabato-Telmo

## Stop doing:

- Since we will no longer have classes, we can stop worrying about other classwork while working on the site.
- We will incidentally also stop having Scrum meetings in person
- We will likely stop using Slack in order to streamline the communication pipeline as the team loses a few members.

## Start doing:

- We will start communicating more online to facilitate remote development
- We will start refactoring the code to accommodate easier changes by a two-person dev team
- We will start soliciting opinions and doing basic user testing on the site

## Working well:

- We will continue to utilize Pivotal to manage our scrum board as we will be working remotely

## Work completed:

- Page Linking
- View Uploaded Systems
- User Accounts
- SSL Certificate
- Category Tags
- SRD Pages
- UI Implementation

## Not completed:

- Deploy to Server
- Home View
- Browse
- UI Refinement
- Discussion System
- Voting System

## Work completion rate/velocity:

- We are spending on average 12 hours a day on this project.
- We are completing an average of 2 story points per day.
- Our ideal work hours were 3 work hours (one hour per day per person)

- We did not meet our ideal work hours, but just barely.
